

# SC'ÖÖF SC'ÖÖF SC'ÖÖF

## NEW SOUND

CDR003SA

<https://scoeof.bandcamp.com/>

What was that?  
Will everything be different?

This contemporary release  
represents a modern feeling.

Is it a trial to overcome numb-  
ness? Expression reflecting  
no impressions?

Too many impressions?

The sound is specific, raw and  
overwhelming.  
Is this the starting point for  
something new? Or do we just  
put it back in the cupboard,  
close it, and go on?

### Details

## NEW PLATFORM

Extreme interactive  
3D-Fun!

[sampler.danemark.club](http://sampler.danemark.club)

The platform is designed in  
ways that allow an immersive  
experience of sound, 3D-au-  
dio, video and user interaction  
on different layers in a videog-  
ame-like character.

Behind it, there is the urge to  
collectivize, to involve on dif-  
ferent levels, the striving for  
independence and the need  
to carve out a language as a  
means of transmission.

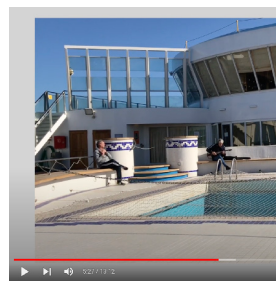

The platform reflects what  
Sc'ööf has developed in  
real-life mutlidisciplinary  
installations and our investiga-  
tion around the reception and  
contextualisation of music  
and art.

It gives us the possibility to  
make our output publicly  
accessible quickly and at any  
time and to develop it iter-  
atively - the same way we  
develop our music.

## NEW VIDEO

The best of both worlds!

[youtube.com/scoeof](https://youtube.com/scoeof)

In this release we think the  
platform and the new sound  
together. How do we get from  
a digital space back to the  
real world and vice versa?

How do we bring our real  
listening experience and our  
compositions as close to real-  
ity as possible?

This video can be found in the  
Sc'ööf house in the platform  
and is a meta-door back. Go  
and find it.

**Sc'ööf is an experimental band that has formed its own radical sonic language, which is at once refreshingly adventurous and in-your-face. A strong affection for captivatingly odd grooves and an excessive live energy makes Sc'ööf an exciting bag of surprises.**
