

SC'ÖÖFSC'ÖÖFSC'ÖÖF

Sc'ööf is an experimental band that has formed its own radical sonic language, which is at once refreshingly adventurous and in-your-face. A strong affection for captivatingly odd grooves and an excessive live energy makes Sc'ööf an exciting bag of surprises.

Weaving is a behavioral disorder that occurs in elephants living in captivity and is an indication of deeper psychological problems, like stress. Weaving is characterized as a pattern of uniform movements, such as repeatedly stepping forwards and backwards while rhythmically swaying the body. In older animals these patterns can become so ingrained that they persist even though a cause for such behavior is no longer recognizable.
